- | | | |
|-------------|---|---|
| 2021 | Pentagon (CNN, 16 April 2021):
"Leaked video of unidentified aerial phenomena is real." |  |
| 2020 | Haim Eshed PhD, Israeli professor of Astronautics (<i>Yedioth Aharonot</i> , Israel, 5 December 2020):
"Aliens from all over the universe are already walking among us, but have asked not to make it known because humanity is not ready yet." |  |
| 2012 | Brian O'Leary PhD, NASA astronaut group 6 1967, US professor of Physics (<i>Thrive</i> the movie, 2012):
"There is abundant evidence that we are being contacted. Civilizations have been monitoring us for a very long time..." |  |
| 2009 | Lachezar Filipov PhD, Bulgarian professor of Astrophysics (<i>The Telegraph</i> , UK, 26 November 2009):
"Aliens from space are already among us and, and are watching us all the time. They are not hostile towards us, rather they want to help us but we have not grown enough in order to establish direct contact with them." |  |
| 2009 | Zhang Yifang PhD, Chinese professor of Physics (<i>Global Times</i> , China, 9 November 2009):
"Aliens are living in China. Their intelligence is beyond us. They must have a good reason to choose to stay in Yunnan... I believe they are friendly and they have no intention of attacking us." |  |
| 2008 | Edgar Mitchell DSc, Apollo 14 astronaut (<i>Kerrang! Radio</i> , UK, 23 July 2008):
"We have been visited on this planet and the UFO phenomenon is real, although it's been covered up by governments for quite a long time." |  |
| 2008 | Ervin Laszlo PhD, Hungarian philosopher of science (interview in Amsterdam, the Netherlands, spring 2008):
"There are reports of extra-terrestrials having contact here... Some of the things I know I'm not supposed to say because they will never tell me anything more. But I am certain contact has been made." |  |
| 1953 | George Adamski, contactee and metaphysics teacher (<i>Flying Saucers Have Landed</i> , 1953):
"It was about 12.30 in the noon hour on Thursday 20 November 1952, that I first made personal contact with a man from another world. He came to Earth in his spacecraft, a flying saucer." |  |

Now can we take the 1950s contactees seriously again?
